與北京大學醫學部合作培育護理人才

自回歸以來，澳門理工學院傳承愛國愛澳精神，以“紮根澳門，背靠祖國，面向世界，爭創一流”為理念，以“普專兼擅，中西融通”為校訓，堅持“學生為本，質量立校”，突出重點學科，全面協同發展，設立新的學位課程，使課程設置更趨合理，以適應澳門社會經濟發展的需求。學院致力完善學士、碩士和博士全方位人才培養體系，開設多元化的應用型課程，涵蓋資訊科技、生物醫學與健康、體育、語言與翻譯、公共管理與服務、工商管理、藝術等學科範疇。同時，學院進一步加強與國內外知名高校合作，引進優質教育資源，提升人才培養質量。

2021年6月，在國家衛生健康委員會、國家教育部等政府有關部門及澳門特區政府的大力支持下，學院與北京大學醫學部簽署護理領域學術合作協議，設立“北京大學醫學部—澳門理工學院護理書院”，開辦護理學學士學位課程，由兩校共同組成教學團隊，充分發揮雙方資源優勢。學生在學習期間安排在澳門和北京兩地實習，有效提升澳門護理教育水平，為灣區培養具有國際視野，全方位、高水平的護理領軍人才，助力建設健康灣區和人才教育高地，促進粵港澳大灣區護理領域的教研發展。

國際認證

學院注重教與學質量保證，引入國際學術評鑑和課程國際專業認證成為高校未來發展的必由之路。目前，大部分課程已通過國際學術評鑑及專業認證，教學質量獲國家和國際權威組織的認可。2020年9月，大數據與物聯網碩士學位課程成功通過英國工程技術學會的學術評鑑，成為澳門首項通過該學會國際級高等教育學術評鑑的工程碩士學位課程，畢業生具備國際認可的英國註冊工程師全部學歷資格。同時，電腦學學士學位課程繼2011年及2016年後，連續第三次成功通過英國工程技術學會的學術評審，課程教研質量達國際水平。

Cooperation with the Peking University Health Science Center on Nursing Talent Cultivation

Since the return of Macao to the motherland, MPI has insisted on carrying forward the spirit of loving the motherland and Macao with “taking root in Macao, being backed by the motherland, facing the world and striving for excellence” as its philosophy, as well as “Knowledge, Expertise and Global Vision” as its motto. It has adhered to student-centred education and quality teaching, highlighted key disciplines and comprehensively coordinated development, and set up new degree programmes that enhance the programme setting, with a view to meeting the needs of Macao’s social and economic development. Committed to improving the comprehensive talent training system for bachelor’s, master’s and doctoral degrees, MPI offers a variety of application-oriented courses, covering information technology, biomedicine and health, physical education, language and translation, public administration and service, business administration, art and other disciplines. At the same time, MPI further strengthens partnerships with well-known higher education institutions at home and abroad to introduce high-quality education resources and improve the quality of talent training.

In June 2021, with the strong support of the National Health Commission, the Ministry of Education and other relevant government agencies and the Macao SAR Government, MPI signed an academic cooperation agreement in the field of nursing with the Peking University Health Science Center on the establishment of the “Peking University Health Science Center – Macao Polytechnic Institute Nursing Academy” and the offering of the Bachelor of Science in Nursing programme. According to the agreement, the two schools will jointly form a teaching team to give full play to the advantages of both parties’ resources. Students will be arranged internships in Macao and Beijing during their studies as a means to effectively improve the level of nursing education in Macao, cultivate all-round and high-level leading nursing talent with an international vision for the Bay Area, help build a healthy Bay Area and a hub of talent education, and promote the development of teaching and research in the nursing field in the Guangdong-Hong Kong-Macao Greater Bay Area.

International Accreditation

MPI attaches importance to teaching and learning quality assurance. The introduction of international academic review and international professional accreditation of academic programmes has become the sure route for the future development of higher education institutions. At present, most of its academic programmes have passed international academic review and professional accreditation. The teaching and learning quality has been recognised by national and international authoritative organisations. In September 2020, the Master of Science in Big Data and Internet of Things successfully passed the academic review by the UK Institution of Engineering and Technology (IET), becoming the first master’s engineering programme in Macao to pass the IET international academic review of higher education, and so graduating students can achieve all the educational attainment requirements for an internationally recognised UK registered engineer. Moreover, the Bachelor of Science in Computing successfully passed the academic review by the Institution of Engineering and Technology for the third consecutive time after 2011 and 2016, reflecting that the teaching and research quality of the programme has reached the international level.

理想前景

學院致力培養具社會意識和國際視野的高水平人才，秉持以學生為本、質量立校。歷年畢業生升學就業率與薪酬待遇令人滿意，眾多校友已成為各行各業的中堅力量。在最新的《畢業生就業機構滿意度調查報告》顯示，就業機構僱主對畢業生在職表現的總體滿意度，超過80%對學院畢業生給予好評，人才培養效果備受社會和業界認同。

根據2021年1月公佈的《畢業生升學及就業調查報告》，超過85%畢業生在畢業當年的9月底前獲聘用，其中超過11%畢業生任職管理層。在澳門就業的畢業生，月薪中位數為14,650澳門元，平均月薪約為16,000澳門元。其中，最多畢業生從事的行業首四位分別為：教育，貿易、批發及零售，社會服務，醫療、衛生及護理。此外，約60%畢業生從事與其所學專業相關的工作，並認為所學專業對工作有幫助。

在升學方面，畢業生主要選擇在澳門繼續升學，也有部分到中國內地，以及遠赴葡萄牙、澳大利亞、英國和美國的知名學府深造，超過75%畢業生認為學院的課程對其升學有幫助。

Ideal Prospects

MPI is committed to student-centred education and quality teaching, and is dedicated to cultivating high-level talent with social consciousness and an international vision. The ratios of students successful in pursuing further education or landing their first jobs upon graduation over the years have been satisfactory, and so have their salaries and benefits. Many alumni have become elites in different industries. Regarding graduate employment, it is shown in the latest *Report of Employer Satisfaction Survey* that over 80% of employers are satisfied with the overall on-the-job performances of MPI graduates. The talent training effect of MPI has gained recognition from society and corresponding industries.

According to the *Graduate Survey Report* released in January 2021, more than 85% of students were employed before the end of September in the year of graduation, of which, over 11% were offered a management position. For MPI graduates working in Macao, the median monthly salary is MOP14,650 and the average monthly salary is about MOP16,000. Specifically, education, trade, wholesale and retail, social services, as well as medical care, health and nursing are the four most popular industries among MPI graduates. Additionally, approximately 60% of graduates are engaged in jobs related to their majors and find the knowledge gained through their majors helpful to their jobs.

As for further education, while many MPI graduates chose to continue their studies in Macao, some were enrolled at prestigious institutions in Mainland China, Portugal, Australia, the United Kingdom or the United States. More than 75% of graduates agree that the courses offered by MPI are helpful for them in continuing their education.
